

FORD LASER S AND TX3.

HAVE YOU DRIVEN A FORD...LATELY?

THIS BROCHURE IS NO
PLACE FOR QUIET
SUNDAY DRIVERS.

In Australian motoring, the name "Laser" holds a special position. For Laser is a car which has won the hearts of thousands

upon thousands the nation over. Laser's popularity has seen it lead the way in cars of this class.

Today's roomier, zoomier Laser range offers the vehicles to satisfy – and reward – most needs and tastes in motoring. Laser XL, GL, GLi and Ghia hatches and GL and Ghia sedans are described in a separate brochure.

This brochure, however, is all about two distinctly different Laser models. And we make the

point here and now that these pages are not for quiet Sunday drivers.

If you are the type of individual who enjoys the occasional surge of adrenalin, who prefers to be pro-active rather than reactive, the kind who isn't afraid to make a statement in life, please read on. And enjoy.

LASER S.

Driving enthusiast, prepare to become a *Laser* enthusiast.

This sporty 5-door hatch offers sparkling performance, agile handling and an interior dedicated to the joy of driving.

LASER TX3.

The way it looks completely reflects the way it drives.

And if people look at you like you're having too much fun, well, you wouldn't let a little thing like that worry you, would you?

Laser S

1.8 litre SOHC engine with electronic fuel injection and 4 valves per cylinder.

Laser TX3

1.8 litre DOHC engine with electronic fuel injection and 4 valves per cylinder.

READ FASTER.

DRIVE SOONER.

The best way to appreciate these very special Lasers is to spend some time with them. The sooner you've read this brochure, the sooner you can get to your Ford dealer where the excitement really starts.

However, in the meantime, to help you gain a greater understanding, we offer these insights into the thinking of the designers and engineers at Ford.

The fundamental objective has

Power windows. (TX3 only).

Tilt adjustable steering column.

Power locking. (TX3 only).

yours at a glance. The controls fall instinctively to hand.

The soft-feel, tilt adjustable sports steering wheel is comfortable and easy to control.

A convenient footrest makes for more relaxed driving. The sports bucket seats feature numerous adjustments for your comfort, including adjustable head restraints.

There's nothing low key about Laser style. Whichever Laser you opt for, you'll find it packs a lot of

been to produce two sporty Laser hatches that are quick, safe, well appointed and a whole lot of fun to drive. Simplicity being the essence of good design, our designers set about creating instrument panels that are uncluttered, clear and easy to read. A tachometer and an extensive array of gauges and warning lights are included.

All the information you need is

*Smooth, quick-shifting
5-speed manual gets
things going.*

Great sounding 4 speaker AM/FM stereo radiocassette player is equipped with a programmed security code, Dolby™ and music search (TX3 only).

street-smart styling touches. And to go with all the style, a lot of substance. In addition Laser TX3 has power windows, power door locks and electrically controlled exterior mirrors.

In both Lasers, you have power assisted rack and pinion steering, 4 wheel power disc brakes, and you drive to the beat of a 4-speaker AM/FM stereo radio-cassette player equipped with a programmed anti-theft security code. The TX3 model has Dolby NR.

When it comes to room, Laser has always been generous. And

today's Lasers are even roomier.

And, while the big picture is one of room, Laser doesn't overlook little details either.

For example, in the back, you have the versatile 60/40 split folding

rear seat to accommodate those long or awkward shaped objects while still providing room for passengers.

Or you can fold down both sides for even more carrying space.

1.8 EFI DOHC 16v.

Bore x Stroke mm	83 x 85
Cylinder head	Aluminium Alloy
Fuel System	Multipoint electronic fuel injection with variable inertia charge system (V.I.C.S.)
Fuel	Regular Unleaded

1.8 EFI SOHC 16v.

Bore x Stroke mm	83 x 85
Cylinder head	Aluminium Alloy
Fuel System	Multipoint electronic fuel injection with electronic spark advance
Fuel	Regular Unleaded
Displacement cc	1840
Valves per cylinder	4
Compression Ratio	8.9:1
Max. Power DIN kW/rpm	76/5500
Max Torque Nm/rpm	150/4000

MY, HOW TIME FLIES...

...which brings us to the engines that power these sporty machines.

At the heart of each lies a 1.8 litre EFI four cylinder engine. In Laser S it's a single overhead cam design; the TX3 features double overhead camshafts. The engines incorporate advanced 16-valve technology with pentroof combustion chambers.

With four valves per cylinder,

more air and fuel enter the combustion chamber and the exhaust gases escape faster.

The result is something you

will appreciate as soon as you depress the accelerator.

The engine feels smooth and responsive and the power flows evenly.

You experience more torque at lower speeds and greater power at higher engine speeds.

With extensive anti-corrosion treatment, this beautiful body is engineered to last.

To get the most out of these advanced engines, each of these Lasers is equipped with a versatile 5-speed manual transmission.

It's on its own for shifting ease and feel.

FORDCARE. OUR COMMITMENT
TO CUSTOMER SATISFACTION.

Fordcare is a whole range of programs, products and services designed to make Ford owners the most satisfied motor vehicle owners in Australia.

Fordcare starts when you enter an Authorised Ford dealer's showroom, it's there when you take delivery of your new Ford and it continues for the life of the vehicle.

That means first class service for you at all times, and nothing less than the best for your Ford from our extensive network of authorised Ford dealers.

As motor vehicles become more sophisticated and technically advanced, specialised care and maintenance become more vital.

Fordcare provides the technical equipment and expertise to keep your Ford operating in peak condition. The well-being of your Ford is supported by these additional warranties:

THE FORD 24 MONTH/50,000 KM
EXPRESS NEW VEHICLE WARRANTY.

Covers your Ford against defects in factory materials or workmanship for the first 24 months or 50,000 km - whichever occurs first. When fitted at time of vehicle purchase, Ford Approved Accessories are also covered by the Ford 24 month/50,000 km Express New Vehicle Warranty.

FIVE YEAR PERFORATION
CORROSION WARRANTY.

Covers the original vehicle's body against perforation corrosion for the first five years of its life.

All optional equipment referred to in this brochure is available at extra cost unless otherwise stated.

This brochure is designed to provide you with a general introduction to the Ford Products (including available optional equipment) referred to, and should be read in conjunction with the latest specification sheet. Because of changes in conditions and circumstances Ford* reserves the right, subject to all applicable laws, at any time, at its discretion, and without notice, to discontinue or change the features, designs, materials, colours and other specifications and the prices of its products, and to either permanently or temporarily withdraw any such products from the market without incurring any liability to any prospective purchaser or purchaser. The latest specification sheet should be referred to for information on the availability, ordering and use of optional equipment. Always consult an Authorised Ford dealer for the latest information with respect to features, specifications, prices, optional equipment and availability before deciding to place an order.

*FORD MOTOR COMPANY OF AUSTRALIA LIMITED.
